To Whom It May Concern,

According to U.S. Green Building Council requirements, No-Burn[®] Plus and No-Burn[®] Plus Mih may provide points under EQ Credit 4.2, Low-Emitting Materials: Paints and Coatings.

The requirement of EQ Credit 4.2 states that the “VOC emissions from paints and coatings must not exceed the VOC and chemical component limits of Green Seal’s Standard GS-11 requirements.” The calculation of VOC weight in grams/liter of product minus water shall not exceed 50 for a flat interior coating.

No-Burn[®] Plus and No-Burn[®] Plus Mih are latex paint coatings with low VOC emissions. They do not exceed the VOC and chemical component limits of Green Seal’s Standard GS-11 requirements. The founding numbers were calculated by No-Burn[®]’s plant chemists. They are as follows:

No-Burn[®] Plus17.78 grams/liter

No-Burn[®] Plus Mih....16.75 grams/liter
