

Robbins Care Center

No Burn of Utah

Dear Ron and Liz:

We want to thank you for treating our Christmas tree with No Burn's Wood Gard and our furniture with the No Burn Fabric Gard. We were so impressed with the demonstrations that you did and the videos that you showed us demonstrating your products.

Our Center was built in 1989 so it is too late to treat the interior of our building with Wood Gard on the studs. We are planning an addition and at the appropriate time we will have you apply the No Burn to the addition and we will repaint using No Burn Plus at that time.

Again, thank you for your wonderful products and we look forward to the peace of mind that having used them in our Center gives us in the care of our Residents.

Sincerely,

Lynn Robbins
